This role will consist of the following:</p>
	<p><b>RESPONSIBILITIES</b></p> <p>(Typical activities and responsibilities include)</p> <ul style="list-style-type: none"> <li>• Use markup languages to create user friendly web pages</li> <li>• Develop and or suggest new user-facing features</li> <li>• Build reusable code and libraries for future use</li> <li>• Design mobile app features – (Flexible, if not able to you can still apply)</li> <li>• Create quality mockups and prototypes</li> <li>• Help back-end developers with coding and troubleshooting</li> <li>• Ensure high quality graphic standards and brand consistency by following branding guide</li> <li>• Overseeing creative side considering the UX</li> <li>• Liaising with the back-end/UX developer, ensuring that all files requested are on the correct format</li> <li>• Consulting with senior team on the on-going creative concepts</li> </ul>

**ENTRY REQUIREMENTS**

- Relevant GCSE's - English and Maths: Minimum grade C
- Relevant experience in Front-end development, preferably in the corporate/entertainment industry
- Computer Science or Graphic Design related degree

**PREFERRED SKILLS**

- Hands on experience with markup languages
- Familiarity with browser testing and debugging
- In-depth understanding of the entire web development process (design, development and deployment)
- Understanding of layout aesthetics
- Excellent organisational and time management skills with the ability to multi-task
- Ability to work efficiently under pressure and to use own initiative
- Flexibility, reliability and punctuality
- Creativity, imagination and able to use own initiative
- Good teamwork, analytical and problem-solving skills
- Business awareness and a good knowledge of current affairs

**ADDITIONAL NOTES**

*Please note that additional tasks may arise as the project progresses. If you have any further questions regarding this position please do not hesitate to contact US via the details listed above. Good luck!*
